Ms. Cathy Hsu
FCC
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Ms. Hsu

Within the assignment guidelines, and consistent with ITU_T Recommendation Q.708, Syniverse requests the assignment of one (1) International Signaling Point Codes.

The International Signaling Point Code (ISPC) will be used by Syniverse to deploy a new Signaling Control Point (SCP) within our signaling network to serve international customers. This new SCP is an expansion of our signaling network and is dedicated to serve international carriers. As required, there is no direct relationship of these codes to telephone, data or ISDN numbering and they will be used for international signaling points within the Syniverse Signaling System 7 (SS7) Network.

The above requested ISPC will be deployed at our facility in Tampa, FL. We respectfully request that this new point code to be assigned by January 7, 2008. If you require any additional information regarding this request, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "David Robinson", with a long, sweeping horizontal line extending to the right.

David Robinson
